Our company needed a new copier after seven years. After reviewing two different, competitive proposals, we went with Gray & Creech, and we are so happy we did. This was in large part due to Chris Wilkins and the services the company offered—they were simply unparalleled. As a small company, we also really liked that Gray & Creech was local. Everyone we've met, from Chris to Alec Bean and Gavin in IT, was knowledgeable, pleasant, and easy to work with. We're looking forward to this partnership and highly recommend any business to Gray & Creech.
